

KING'S HOME

Memorandum

To Whom It May Concern:

In compliance with PREA standard 115.388, I have reviewed our data concerning sexual victimization for the calendar year 2022, and compared it to data from 2021.

There were no reported allegations of sexual assault, sexual abuse, or sexual harassment during either calendar year.

King's Home DYS will continue to provide our staff with PREA training, and the administration will strive to ensure that staff members are adequately supervising our students in order to provide the safest living environment possible.

Sincerely,

Robby Allen

PREA Compliance Manager
King's Home DYS
